

Light Show® Red

BOTTLEBRUSH

Dense, emerald green foliage covers this tough flowering shrub. Reaching only 2–3' tall, as well as being drought and salt tolerant, Light Show® Red is suitable for a variety of landscape applications. Striking red bottlebrush flowers appear early summer and last through fall. New growth is light green, darkening as it ages. It's a low maintenance winner with long lasting good looks.

FEATURE

Red flowers that resemble a bottlebrush bloom in spring to summer
