CHAMAECYPARIS

A striking evergreen shrub with a dense, rounded habit, it tolerates full sun with no noticeable burn in outdoor trials. Its colorful yellow foliage becomes bronze in the winter while retaining green on the innermost part of the leaves.

USE

Accent, Border, Container, Hedge, Low Hedge, Mass Planting

BLOOM / BLOOM TIME

Colorful yellow green foliage spring to fall, changing to bronze in winter

GROWTH RATE

Moderate

WATER

Medium

SOIL

Tolerates a wide range

FERTILIZE

Feed throughout growing season
