Clarity Blue™ DIANELLA

Dianella hvbrid 'DP401' Claritv Blue™ PPAF

Dianella are the ultimate easy care plants. This tough new hybrid gets strong upright Phormiumlike growth from one parent, and deep blue color from the other. Plays well with succulents, and makes a great container plant.

USE

Borders, beds, containers, slopes, rock gardens

FEATURE

Clear blue upright foliage

GROWTH RATE

Slow in winter; moderate spring to fall

WATER

Very low water needs once established

SOIL

Tolerant of most well-drained soils

FERTILIZE

low

PRUNE

If needed, trim leaves back to base
